# ABOUT HMI CARDINAL

## Established in 1946,

HMI Cardinal manufactures a family of glass and metal products in our range of brands. Cardinal Shower

Enclosures is the industry's largest domestic manufacturer of shower enclosures. Under the Cardinal Commercial Products brand we manufacture a complete line of storefront, curtain wall and entrance doors, with thermally broken systems, fire rated glass, as well as powder coating in-house. We control the entire process from "Design to Delivery" to ensure that we provide you with unmatched quality and service. We are the only company that fabricates, casts and tempers premium art glass in house. Our unique Ultimate Optique glass combines cast glass and optically clear glass in the same panel. We use only state of the art equipment in our centrally located 280,000 sq. ft. manufacturing facility. Our quality is unmatched with consistently 95% fewer issues than the industry standard, helping your product arrive complete, correct and on time, every time.

# UPGRADE TO PLATINUM

On the **CARDINAL SERIES** or **EURO SERIES** Sliders

The Platinum edition, available on the Cardinal, Euro and Riviera Euro Series sliding door enclosures, feature several upgrades which makes the rolling action of the slider ultra-smooth. The new V-shaped wheels, when paired with upgraded roller brackets, are designed to easily move along the new V-shaped tracks in the headers. Only our Skyline enclosures have smoother action, riding on their large 2" rollers.

PLATINUM  
UPGRADE

# UPTOWN & UPTOWN GRAND SERIES

## SWING DOOR ENCLOSURES

HARDWARE	Continuous hinge door with inline panel, and choice of four pulls
CONFIGURATIONS	Semi-frameless swing door and panel. Uptown Grand has no header.

# TRUFIT SERIES

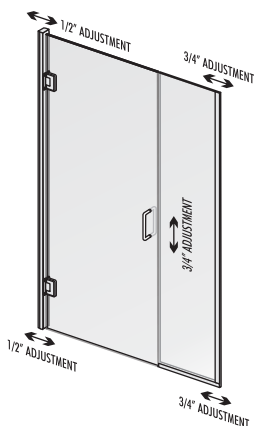

## SWING DOOR ENCLOSURES

Traditional heavy glass enclosures need to be made to order because even an 1/8" out of plumb can require custom glass. The TruFit enclosure utilizes our custom jamb and channels to allow for easy, on-site adjustment to the wall and curb conditions.

### FIBERGLASS INSTALLATION

Now you can have heavy glass in a fiberglass stall!

- You do not need to hit a stud when installing the door
- Eight molly bolts spread out the weight to the unit and curb
- Customers say they can do a tear out and install in one hour
- For remodels, the wall jambs can cover old screw holes

### QUICK FACTS

HEIGHTS	72" or 75" tall. Jamb is 7/16" taller than top of glass door for a height of 72 7/16" or 75 7/16"
FINISHES	Chrome, Brushed Nickel, Oil Rubbed Bronze, Roman Bronze and White
GLASS	Stock Glass: 3/8" Clear
HARDWARE	Heavy glass hinges mounted on our custom jamb, with a 6" back to-back C-pull
CONFIGURATIONS	Single door or door and panel
ADJUSTMENT	Single door has 1/2" of adjustment, while the door and panel has 1 1/4" of adjustment

# EURO SERIES

## SLIDING DOOR ENCLOSURES

Platinum Riviera Euro Series with Wisp glass
